

Fire Magic

The Ultimate Barbecue

Robert H. Peterson Company

Families and friends are entertaining at home and enjoying outdoor living more than ever. Gourmet grillers appreciate the quality design and unbeatable performance of a Fire Magic.

Solid unibody construction enhances the performance and durability of Fire Magic gas grills. Commercial quality details such as full stainless steel interior structural components, heavy-duty knobs surrounded by stainless steel bezels, push button solid state electronic ignitors, heavy-duty double wall stainless steel hoods, and reflective control panels highlight Fire Magic's leadership in grill design.

Portable models benefit from unibody construction which results in a sleeker appearance. Portables sport useful fold-down shelves with handy built-in tool holders.

For those who have already invested in a Fire Magic grill, there are indispensable accessories to further outdoor cooking fun and ease of preparation. For instance, the new Infra-Red Cooking system allows for quick, high temperatures, perfect for searing a steak.

Fire Magic

The Ultimate Barbecue

Using either natural or propane gas, and offering the highest BTU input per square inch of any barbecue grill, Fire Magic delivers fast dependable starts, high performance, even heat, precision-controlled temperatures, and the best warranty in the industry.

Whether purchasing one of the all-inclusive built-in packages or durable portable models, there's no better barbecue available. Owning a Fire Magic enhances the reputation of any gourmet chef!

Gourmet Built-In Package Barbecues

Gourmet Barbecue Packages include:

- All Stainless Steel Construction
- Gourmet Barbecue with Stainless Steel Rod or Porcelain Cast Iron Cooking Grids
- Regulator
- Cast Stainless Steel Burners
- Gourmet Double Wall Smoke Hood (Porcelain Hood Single Wall)
- Bright Polished Stainless Steel Bezels and Face Trim
- Electronic Ignition System
- Cooking Grid Lifter
- Heavy Gauge Stainless Steel Warming Rack

THE BEST ROTISSERIE BACKBURNER ON THE MARKET

This **infra-red convection backburner**, with a perforated radiant surface made of Type 18SR stainless steel, provides fast, thorough rotisserie cooking. It withstands repeated red hot temperatures, is not susceptible to breakage or clogging, and is self-cleaning.

A slim profile allows the most grilling and rotisserie space. Use our backburners with or without bottom burners to suit your taste. This is the widest backburner available. **No grill cooks a bigger bird!** When only grilling, a backburner cover keeps grease away.

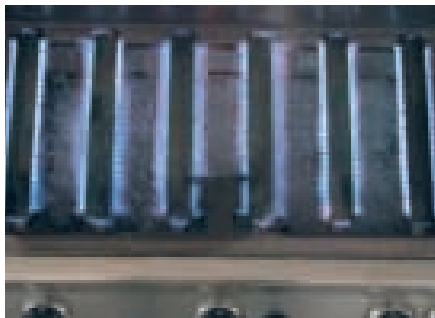

Fire Magic backburner units come fully assembled.

A heavy-duty rotisserie kit is included with the backburner along with a high-powered motor, large spit rod, perfectly engineered counter balance, and two 4-prong meat holders. Accessories include the ideal chicken and turkey holders and fish/vegetable basket.

Fire Magic

The Ultimate Barbecue

MOST EVEN HEAT DISTRIBUTION

Unique burner design combined with burner placement, flavor grids, spacious firebox height, hood design and internal size provide the **most even heat distribution system**. Burners are designed and placed so that portholes are evenly spaced throughout the whole barbecue, front to back. This design is a key factor in avoiding flare-ups.

EXCLUSIVE FLAVOR GRID OPTIMIZES HEAT DISTRIBUTION

Uniquely angled, perforated, solid edged **16 gauge all stainless steel** Flavor Grids radiate the burner's heat evenly throughout and across the entire surface. Reflects all the heat up toward the grilling surface, not down like ceramic briquettes or rods. Provides best tasting food by vaporizing drippings. Grease fires are minimized. Heats and cools quicker than any other barbecue. Simple to clean. Lasts for years. Allows for easy use of wood chips and other flavor enhancers.

HEAVY-DUTY CAST STAINLESS STEEL BURNERS

High quality castings using the latest technology with precision machined burner ports evenly spaced throughout the barbecue. Combined with a uniquely developed internal baffling system, each burner provides even heat, at the highest high and the lowest low. These burner walls are **4-5 times thicker** than any other stainless steel burners. The most durable burners on any barbecue... **warranted for life!** Burner and Air Shutter are specially machined for precision adjustment of Air/Gas mixture.

THE FINEST ELECTRONIC SPARK IGNITION SYSTEM

State-of-the-art, extra heavy-duty battery operated **electronic ignition**. Perfectly designed and positioned for easy, reliable lighting – just spark until lit. Heat protected for long life. Easy access to battery.

PRECISION BURNER CONTROLS

The widest temperature range and the best cooking control. From an adjustable low, so low that you can bake a cake... To a high, so high (1000°F) that you can sear a steak!... (and cook it throughout).

Fire Magic gives you versatility that is unmatched in barbecue grilling.

HOOD DESIGN AND CONSTRUCTION

Functionally designed, this hood is engineered to reflect heat while allowing use of the entire cooking surface. It creates a natural convection effect, cooking the food evenly, providing the utmost in versatility, permitting the biggest and best in rotisserie cooking and allowing for indirect cooking.

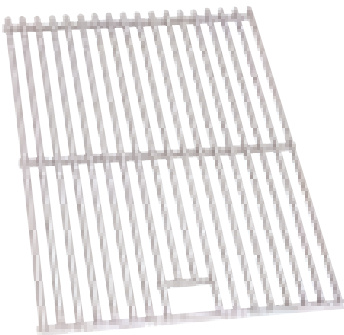

Along with the perfectly placed pivot hinge system, this roll top style hood **provides the best in cooking and cooking control**. Cook with the hood closed or open. When the hood is open, more than 50% of the grilling space is still covered. This position design helps circulate heat. Large internal clearances allow you to cook more food and rotisserie cook larger items up to 15" diameter. When the hood is closed, your Fire Magic Barbecue cooks like an oven, allowing a full range of outdoor cooking.

With double-walled construction, this beautiful all stainless steel hood features an ergonomically designed handle and attractive shoulders, making it easy to open and close. Silicone bumpers on the lid insure a quiet close.

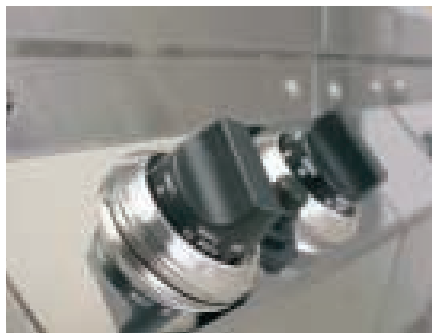

The Advantages

HEAVY-DUTY STAINLESS STEEL COOKING GRIDS

Textured, stick resistant, stainless steel cooking grids are made of heavy-duty 5/16" diameter rods evenly placed every 5/8". They are backed by 3/8" heavy-duty cross rods to cover **over 50% of the cooking space**, perfect coverage for all types of food.

USER-FRIENDLY FACE DESIGNED FOR BEAUTY, SAFETY & CONVENIENCE

- 41° angled ergonomically designed, user-friendly control panel
- Reflective mirror finish
- Reliable electronic spark ignition system
- Easy to use knobs
- Light/Hi/Med-Hi/Med/Med-Lo/Lo positions
- Durable cast brass valves
- Cooler face and knobs – for longer and more dependable performance

MOST SPACIOUS FIREBOX

A full 12" deep firebox top-to-bottom provides the space to properly position burners, heat distribution system, and cooking grids for the best heat diffusion with minimal flare-ups. This space permits the biggest and best in rotisserie cooking.

Fire Magic grills are constructed so the rotisserie and all burners can be used for a variety of cooking at the same time.

***Cook on a Fire Magic once
and see why it's the
ultimate in barbecuing!***

Elite Series

Double Sideburner

A versatile cooking accessory, the Double Sideburner is a "must have" option for outdoor chefs who enjoy preparing multi-course meals on the grill. Enjoy the same precise flame control as the grill offers. Simmer water on one burner and prepare sauces on the other, both at the same time.

It features:

- (2) 15,000 BTU solid brass sealed burners
- Electronic ignition
- Separate controls for each burner
- Angled Gourmet face
- All stainless steel design
- Includes stainless steel cover
- For Natural or Propane gas

(Add "P" to the model number for propane gas)

Model # 3281

- Brick opening —
23 3/4" deep (front to back) x

36 1/2"	M	3609G
51 1/2"	E	3607G

Barbecue Safety Timer

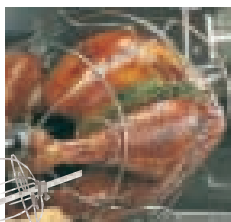

Fire Magic Barbecue Safety Timer offers additional safety by automatically shutting off gas flow at the pre-set times. Flow capacity of 100,000 BTUs.

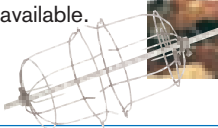

Model # 3090

Poultry Holders

These sturdy holders are perfect for beef, pork and lamb roasts, too. A two-piece turkey holder is shown. A one-piece chicken holder is also available.

Turkey Holder	Model # 3615E
Chicken Holder	Model # 3617E

Flat Stainless Steel Rotisserie Basket

Great for roasting shish-kabobs, vegetables, and fish.

Model # 3618

Drip Receptacle

Catches excess drips to prevent grease fires. Two porcelain pans nest together to provide a cool receptacle.

Model # 3622

Charcoal Basket

Cooking with wood chunks or charcoal is easier than ever with the Fire Magic Charcoal Basket Accessory which is made of 100% stainless steel. The basket sets on top of a burner pair. Using the gas burners to ignite the chunks or coals, your charcoal fire is ready to cook in minutes.

Series I
Model # 3562-1
Series II
Model # 3562-2

Stainless Steel Smoker Box

Perfect for those who enjoy the added flavor of hickory, mesquite, or other wood to your meats, the Fire Magic Smoker Box makes smoking easy. Adjustable vents allow you to control the amount of smoke flavor to provide just the right taste.

Model # 3561

Wok

Those who love wok cooking will want this large, heavy-weight aluminum pan with lid. The hard-anodized stick resistant lined interior surface measures a full 14" in diameter and has ample depth of 5".

Model # 3572

26 Quart Turkey Fryer Pot

You'll be amazed at how tender a deep fried turkey can be. The easy to lift inner basket has a sturdy handle and there is a thermometer probe to assure proper oil temperature. Great as a crab pot as well.

Model # 3570

Barbecue Tool Set

Includes a BBQ fork, spatula, knife and tongs. Constructed of quality stainless steel.

Model # 3575

Adjustable Barbecue Light

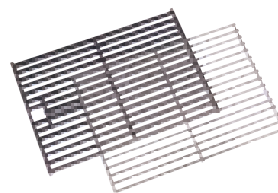

This versatile stainless steel light easily converts from table top to a taller floor model. 35W halogen bulb, water resistant. UL approved.

Model # 3577

Cooking Grids

Superbly crafted grids, built with materials and manufacturing methods that assure years of use. Stainless Steel Rods are backed by a lifetime warranty. Porcelainized Cast Iron and Porcelainized Rod are also available.

Griddles

You'll find both sides of this porcelainized cast iron griddle useful. One side is smooth, the other is ridged.

Model # 3503C
